

Applications

Ryobi Sheetfed Presses

Features and Benefits

- High strength fabrics reduce stretching and gauge loss
- Two closed cell compressible layers deliver advantages of improved smash resistance and excellent rebound.
- Ground rubber surface profiled for maximum ink transfer and quick release

Specifications

Color	Green
Gauge/Ply	.102" /5Ply
Compressibility	2 Closed cell
Surface	Ground
Surface Roughness (Ra)	1.9 μm
Hardness (Shore A)	76-80°
Micro Hardness (Surface)	61°

Blanket Guarantee:

The DYC/Kinyo manufacturing process guarantees no pinholes, no porosity and uniformity of thickness from blanket to blanket.

The blankets are guaranteed to be talc free, in perfect condition and ready to mount on your press when you receive them. If our blankets do not perform, it will cost you nothing.

Consistent, Superior Quality Guaranteed.
