

Applications

Conventional Ink/Coating

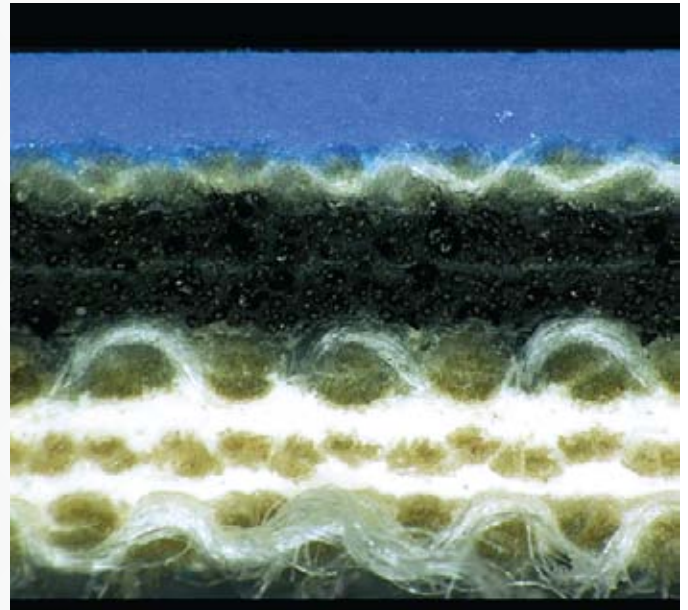

- 2 pc. Metal Decorating
- Forms Printing
- Coating

Features and Benefits

- ThermaSphere® Compressible Layer
- Proprietary NBR Face Compound
- Consistent Gauge Control
- Polished
- Compressible
- Excellent Resistance to Embossing
- Excellent Release Characteristics
- Prints Full Solids/Clean Halftones

Specifications

Color	Blue
Gauge/Ply	.068" /3Ply
Compressibility	Soft
Surface	Polished
Surface Roughness (Ra)	0.8µm
Hardness (Shore A)	80°
Micro Hardness (Surface)	64°
Adhesive Type	"B" Type

Blanket Guarantee:

The DYC/Kinyo manufacturing process guarantees no pinholes, no porosity and uniformity of thickness from blanket to blanket.

The blankets are guaranteed to be talc free, in perfect condition and ready to mount on your press when you receive them. If our blankets do not perform, it will cost you nothing.

Consistent, Superior Quality Guaranteed.
