

Applications

UV Inks/Metal Deco Inks/UV Coating

- 2 pc. Can Metal Deco
- VSOP Web Printing
- UV Coating

Features and Benefits

- High Quality Cotton Carcass
- ThermaSphere® Compressible layer
- Proprietary EPDM face compound
- Proprietary surface technology for sharper screens and fuller solids
- “B” Type adhesive facilitates strong sticking power and no residue upon removal

Specifications

Color:	Persimmon
Gauge/Ply:	.078" /4ply
Compressibility:	Soft type
Surface:	Polished
Surface Roughness (Ra):	0.9µm
Hardness (Shore A):	78° - 82°
Micro Hardness:	61°
Surface Rubber:	EPDM
Adhesive Type:	“B” Quick Changeover

Blanket Guarantee:

The DYC/Kinyo manufacturing process guarantees no pinholes, no porosity and uniformity of thickness from blanket to blanket.

The blankets are guaranteed to be talc free, in perfect condition and ready to mount on your press when you receive them. If our blankets do not perform, it will cost you nothing.

Consistent, Superior Quality Guaranteed.
