

Applications

Conventional Inks

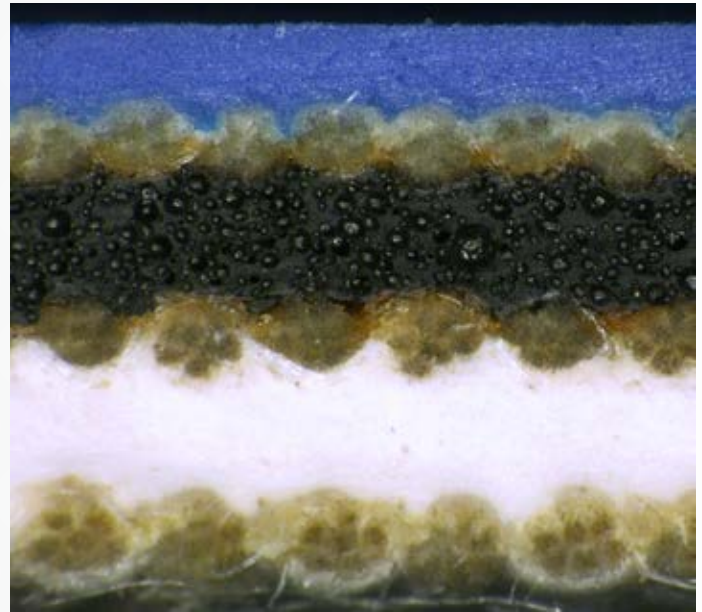

- Commercial Sheet fed
- Packaging

Features and Benefits

- ThermaSphere® compressible layer
- Specially designed new Type 34 carcass
- Ecological, Calendaring manufacturing process
- Ground, semi-polished surface
- Compressible
- Excellent Longevity/Smash Resistance
- Green Manufacturing, safe for Direct Food Contact applications
- Excellent Ink Transfer/Full solids/Clean Halftones

Specifications

Color:	Blue
Gauge/Ply:	.077" /Ply Type 34
Compressibility:	Medium
Surface:	Semi-polished
Surface Roughness (Ra):	1.2µm
Hardness (Shore A):	81°
Micro Hardness (Surface):	56°
Elongation (%):	<1.0%

Blanket Guarantee:

The DYC/Kinyo manufacturing process guarantees no pinholes, no porosity and uniformity of thickness from blanket to blanket.

The blankets are guaranteed to be talc free, in perfect condition and ready to mount on your press when you receive them. If our blankets do not perform, it will cost you nothing.

Consistent, Superior Quality Guaranteed.
