

MC1250UV

Product Data Sheet

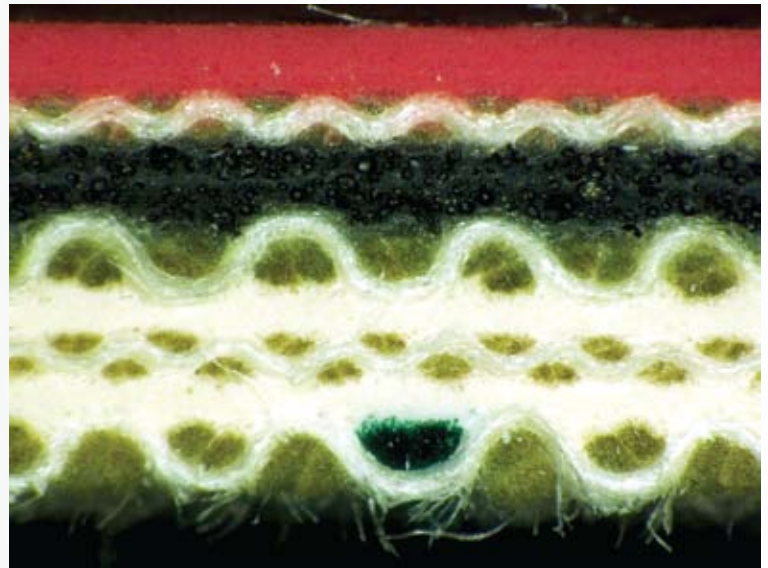

Applications

UV Inks/Coating

- Commercial Sheetfed
- Packaging

Features and Benefits

- High Quality Cotton Carcass
- ThermaSphere Compressible Layer
- Proprietary EPDM face compound
- Reduced embossing and image retention
- Hard, Polished Print Surface
- Sharp Dot Reproduction on Light to Heavy weight stocks
- Reduced edge cutting

Specifications

Color:	Persimmon
Gauge/Ply:	.067"/3ply .077"/4ply
Compressibility:	Hard
Surface:	Polished
Surface Roughness (Ra):	0.90
Hardness (Shore A):	78° - 82°
Micro Hardness:	61°
Elongation (%):	< 1.0

Blanket Guarantee:

The DYC/Kinyo manufacturing process guarantees no pinholes, no porosity and uniformity of thickness from blanket to blanket.

The blankets are guaranteed to be talc free, in perfect condition and ready to mount on your press when you receive them. If our blankets do not perform, it will cost you nothing.

Consistent, Superior Quality Guaranteed.
