

Applications

Conventional Ink

- High Speed Heat Set Web applications
- Sheet fed Printing

Features and Benefits

- ThermaSphere® compressible layer
- Proprietary NBR Face Compound
- High Tensile Carcass
- Consistent gauge control
- Polished Surface
- Compressible for Rapid Recovery
- Excellent Ink Affinity Resists De-Lamination from Solvents and Washes
- Resists Wicking/Smooth Web Feed/Smash Resistance
- Excellent Solid and Screen Reproduction

Specifications

Color	Blue
Gauge/Ply	.067" /3 Ply .077" /4 Ply
Compressibility	Medium
Surface	Polished
Surface Roughness (Ra)	0.9µm
Hardness (Shore A)	80°
Micro Hardness (Surface)	68°
Elongation (%)	<1.0%

Blanket Guarantee:

The DYC/Kinyo manufacturing process guarantees no pinholes, no porosity and uniformity of thickness from blanket to blanket.

The blankets are guaranteed to be talc free, in perfect condition and ready to mount on your press when you receive them. If our blankets do not perform, it will cost you nothing.

Consistent, Superior Quality Guaranteed.
