

Applications

Conventional/News Ink

- High Speed Newspaper/Cold Web
- Heat Set Web
- Directory Printing
- Packaging

Features and Benefits

- Dual, ThermaSphere® Compressible Layer
- High Tensile Carcass
- Consistent Gauge Control
- New Surface Rubber Formulation for Optimum Ink Transfer
- Controlled Feed/Excellent Ink Transfer from Plate to Sheet
- Smash Resistance/Longer Run Life
- Prints Full Solids and Cleaner Halftones

Specifications

Color	Dark Blue
Gauge/Ply	.067" /3Ply .076", .077" /4Ply .081", .082", .083", .085", .086" NoPack
Compressibility	Controlled/Reduced feed
Surface	Ground
Surface Roughness (Ra)	1.7µm
Hardness (Shore A)	81°
Micro Hardness (Surface)	60°
Elongation (%)	<1.0%

Blanket Guarantee:

The DYC/Kinyo manufacturing process guarantees no pinholes, no porosity and uniformity of thickness from blanket to blanket.

The blankets are guaranteed to be talc free, in perfect condition and ready to mount on your press when you receive them. If our blankets do not perform, it will cost you nothing.

Consistent, Superior Quality Guaranteed.
