

Applications

Conventional

- Packaging
- Heat Set Web

Features and Benefits

- Dual, ThermaSphere® Compressible Layer
- High Tensile Carcass
- Consistent Gauge Control
- Semi-Polished
- Smash Resistance/Longer Run Life
- Excellent Ink Transfer on Light to Heavy Weight Board
- Prints Full Solids and Keeps Dots Sharp

Specifications

Color	Dark Blue
Gauge/Ply	.077" /4Ply Hard/Dual Compressible
Compressibility	Layer
Surface	Semi-Polished
Surface Roughness (Ra)	1.0µm
Hardness (Shore A)	80°
Micro Hardness (Surface)	60°
Elongation (%)	<1.0%

Blanket Guarantee:

The DYC/Kinyo manufacturing process guarantees no pinholes, no porosity and uniformity of thickness from blanket to blanket.

The blankets are guaranteed to be talc free, in perfect condition and ready to mount on your press when you receive them. If our blankets do not perform, it will cost you nothing.

Consistent, Superior Quality Guaranteed.
