

Applications

Conventional Inks

- Newspaper/Cold Web
- Metal Deco
- Sheet fed Printing

Features and Benefits

- ThermaSphere® compressible layer
- NBR Face Compound
- High Tensile Carcass
- Consistent gauge control
- Ground Surface
- Compressible for Rapid Recovery with Heavy Substrates
- Resists Wicking and De-Lamination from Solvents and Washes
- No need to Over Pack
- Smooth Web Feed/Smash Resistance
- Excellent Heavy Solid Reproduction

Specifications

| | |
|--------------------------|--|
| Color | Green |
| Gauge/Ply | .050"/2Ply .066"/3Ply .076"/4Ply |
| Compressibility | Hard |
| Surface | Ground |
| Surface Roughness (Ra) | 1.8µm |
| Hardness (Shore A) | 81° |
| Micro Hardness (Surface) | 61° |
| Elongation (%) | <1.0% |

Blanket Guarantee:

The DYC/Kinyo manufacturing process guarantees no pinholes, no porosity and uniformity of thickness from blanket to blanket.

The blankets are guaranteed to be talc free, in perfect condition and ready to mount on your press when you receive them. If our blankets do not perform, it will cost you nothing.

Consistent, Superior Quality Guaranteed.
