

### Applications

#### Conventional Inks

- High Quality Sheet Fed Printing
- Heat Set Web
- Cold Web
- Packaging

### Features and Benefits

- ThermaSphere® compressible layer
- Chemistry Resistant NBR Face Compound
- High Tensile Carcass
- Consistent gauge control
- Polished Surface
- Compressible for Rapid Recovery
- Resists Embossing and De-Lamination from Solvents and Washes
- Smooth Feed/Smash Resistance
- Ultra Sharp Dot Reproduction

### Specifications

Color	Blue
Gauge/Ply	.066" /3Ply .076" /4Ply
Compressibility	Medium
Surface	Polished
Surface Roughness (Ra)	0.8µm
Hardness (Shore A)	81°
Micro Hardness (Surface)	64°
Elongation (%)	<1.0%

### **Blanket Guarantee:**

The DYC/Kinyo manufacturing process guarantees no pinholes, no porosity and uniformity of thickness from blanket to blanket.

The blankets are guaranteed to be talc free, in perfect condition and ready to mount on your press when you receive them. If our blankets do not perform, it will cost you nothing.

Consistent, Superior Quality Guaranteed.
