

Applications

Conventional Inks

- Commercial Sheetfed
- Packaging

Features and Benefits

- High Quality Cotton Carcass
- ThermaSphere® Compressible Layer
- Solvent resistant NBR face rubber
- Reduced embossing and image retention
- Hard, Polished Print Surface
- Sharp Dot Reproduction on Light to Heavy weight stocks
- Reduced edge cutting

Specifications

Color:	Light Teal
Ply/Gauge:	.067"/3ply .077"/4ply
Compressibility:	Hard
Surface:	Polished
Surface Roughness (Ra):	0.8µm
Hardness (Shore A):	81°
Micro Hardness (Surface):	61°
Elongation (%):	< 0.9

Blanket Guarantee:

The DYC/Kinyo manufacturing process guarantees no pinholes, no porosity and uniformity of thickness from blanket to blanket.

The blankets are guaranteed to be talc free, in perfect condition and ready to mount on your press when you receive them. If our blankets do not perform, it will cost you nothing.

Consistent, Superior Quality Guaranteed.
