

Applications

Aqueous/UV Coating

- Commercial Sheet Fed
- Packaging

Features and Benefits

- High Quality Cotton Carcass
- ThermaSphere® Strippable Compressible Layer
- Deep, .039" Relief
- Proprietary Hybrid Nitrile Face Compound
- Hard, Polished Surface
- Smooth, Even, Coating Lay Down
- Resists Back Trapping
- Excellent Gloss Levels

Specifications

Color	Blue
Gauge/Ply	0.077" /4 ply
Compressibility	Soft
Hardness (Shore A)	76° - 80°
Surface Roughness (Ra)	0.85
Micro Hardness	59°
Elongation (%):	<1.0

Blanket Guarantee:

The DYC/Kinyo manufacturing process guarantees no pinholes, no porosity and uniformity of thickness from blanket to blanket.

The blankets are guaranteed to be talc free, in perfect condition and ready to mount on your press when you receive them. If our blankets do not perform, it will cost you nothing.

Consistent, Superior Quality Guaranteed.
