

# STRIPPABLE COATING BLANKETS AND PLATES

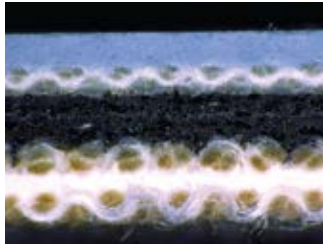

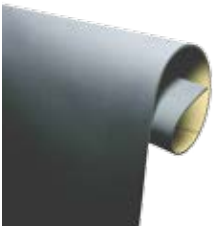

DYC Supply offers a complete line of coating blankets and plates. All blankets are compatible with water based coating and short run UV. The VarniBlue coating plates are compatible with both water based and UV (long run) coatings. Our proprietary surface treatment provides ultra smooth laydown and because of this uniformity, coating consumption is maximized.

## SB02 DI Strippable Coating Blanket

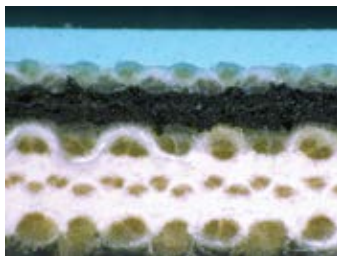

<b>Ply:</b>	4
<b>Gauge:</b>	.078"
