

Applications

Conventional Inks

- High Speed Heat Set Web
- Directory Printing
- Sheet fed Printing

Features and Benefits

- ThermaSphere® compressible layer
- NBR Face Compound
- High Tensile Carcass
- Consistent gauge control
- Ground, Semi-Polished Surface
- Compressible for Rapid Recovery
- Resists Wicking and De-Lamination from Solvents and Washes
- Smooth Web Feed/Smash Resistance
- Excellent Solid and Screen Reproduction

Specifications

Color	Red
Gauge/Ply	.067" /3Ply .077" /4Ply
Compressibility	Soft
Surface	Semi-Polished
Surface Roughness (Ra)	1.3µm
Hardness (Shore A)	80°
Micro Hardness (Surface)	64°
Elongation (%)	<1.0%

Blanket Guarantee:

The DYC/Kinyo manufacturing process guarantees no pinholes, no porosity and uniformity of thickness from blanket to blanket.

The blankets are guaranteed to be talc free, in perfect condition and ready to mount on your press when you receive them. If our blankets do not perform, it will cost you nothing.

Consistent, Superior Quality Guaranteed.
